

SUPERCHARGE[®] **BATTERIES** MORE POWER. LONGER LIFE

**AMP-TECH FLOODED
DEEP CYCLE BATTERIES**

MORE POWER. LONGER LIFE. ASSURED QUALITY.

DUAL PURPOSE BATTERIES

SuperCharge Batteries offer longer life, more power and performance with maximum durability and reliability.

With over 95 years experience, Ramcar produces SuperCharge in its world-class facilities in the Philippines.

What is so special about Expanded Grid Technology (EXG)? The benefits are many. The construction of the calcium plates in super compressed rolled strips creates a dense grid pattern allowing for a more compact unit. It is less susceptible to heat corrosion and delivers more efficient cranking power. Also, as the EXG plates are shorter and have minimal gassing, there is less water loss and no acid top up is required.

SuperCharge starting and semi deep-cycling batteries are specifically designed to meet the 4WD, RV, marine and leisure power requirements of the Australian market. Powered by EXG, they are built with improved heat and vibration tolerance to ensure sufficient cranking (CCA) and energy/capacity (RC and AH) needs. This means ALLROUNDER batteries will not just start an engine but can also sustain constant accessory loads. The ALLROUNDER battery also reduces risk in end-user handling and spillage as well as contamination from dust and dirt for your safety and convenience.

AllRounder

Dual Purpose

- Accessible maintenance-free design
- Improved cranking and semi deep-cycling ability
- Minimal self-discharge rate
- Improved heat and vibration tolerance for long service life

*Warranty conditions apply.

SUPERCARGE WARRANTY

The benefits under this warranty are in addition to other legal rights and remedies you may have in relation to SuperCharge Batteries.

WARRANTY CLAIM PROCEDURE

Proof of purchase is needed to claim under this warranty. You must return the battery, with proof of purchase, to any SuperCharge reseller in person or freight pre-paid by you. You can find the contact details for your nearest reseller by visiting www.supercharge.com.au. Alternatively, you may, in person or freight pre-paid by you, return your battery to your nearest SuperCharge State or Territory office.

WARRANTY INFORMATION

If SuperCharge (itself or through a reseller) finds on examination that the battery is defective due to faulty manufacturing and is within the specified warranty period, then the battery will be replaced with an equivalent battery free of charge. The warranty period is not renewed or extended as a result of this replacement subject to your rights under the Australian Consumer Law.

ALLROUNDER
DEEP CYCLE AND STARTING BATTERY

SUPERCHARGE[®] **BATTERIES** MORE POWER. LONGER LIFE

TAKE CARE OF YOUR ENVIRONMENT

- Batteries drive our world and are a crucial part of today's society. When they are no longer useful, they are 98% recyclable.
- SuperCharge Batteries operates a TOTAL BATTERY MANAGEMENT program that collects and re-uses batteries, delivering an unmatched recycling program.

Help SuperCharge Batteries protect Mother Earth by leaving any used batteries wherever you see this symbol.

To find your nearest collection centre, visit our website or call SuperCharge to arrange recycling of your old battery.

TRADE PARTNERSHIP TO BATTERY COLLECTION

Trade customers workshops can now join a responsible battery collection and recovery program with the following benefits:

- All brands of vehicle batteries can be collected
- Compliance to government regulation and duty of care
- Complete compliance through our responsible disposal system
- Compliance documentation available at time of collection
- Regular collection of batteries
- Provision of RCR - Responsible Care Receiptable
- Payment on returns by way of credit against current and future SuperCharge battery purchases
- Payment by EFT for all batteries collected within a month to be within the first two weeks of the following month
- An extension of service to your customers
- Encourages customers to return to your store resulting in additional sales opportunities

RETAIL CUSTOMERS

Your customers will see your company as credible and responsible. Whether they've bought a battery as a DIY purchase or have had you fit it for them, they will have comfort you are part of a responsible battery collection program.

This program will benefit your customer as their batteries will be recovered free of charge.

Lead is an infinitely recyclable resource, that's good news for the environment and the cost of your customers next battery.

Please note: No batteries will be resold for reuse

BETTER, SMARTER, MORE
EFFICIENT COLLECTION
AND RECOVERY MEANS
